my **TECH**

Trust My Tech

Thales' Global Open Innovation Program

FULL VALUE CHAIN

Open to all partners

StartUps / ScaleUps / SMEs / Editors

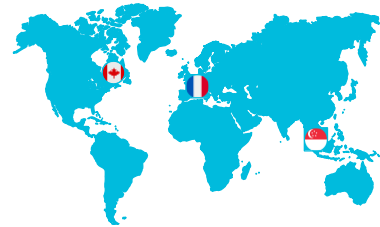

to support our BL's buying and selling strategy from exploration to production

ALL DIGITAL TECH

Under 1 acceleration model

AI, Cyber, Quantum, Data

to support our customers across the digital supply chain

GLOBAL REACH

Across 3 strategic hubs
Montreal, Paris, Singapore

to support regionalization and digital sovereignty

12-weeks

OPEN

Striving for Mutual Success

Creating Win-Win Opportunities for Partners and Thales

OUR VALUE PROPOSITION FOR:

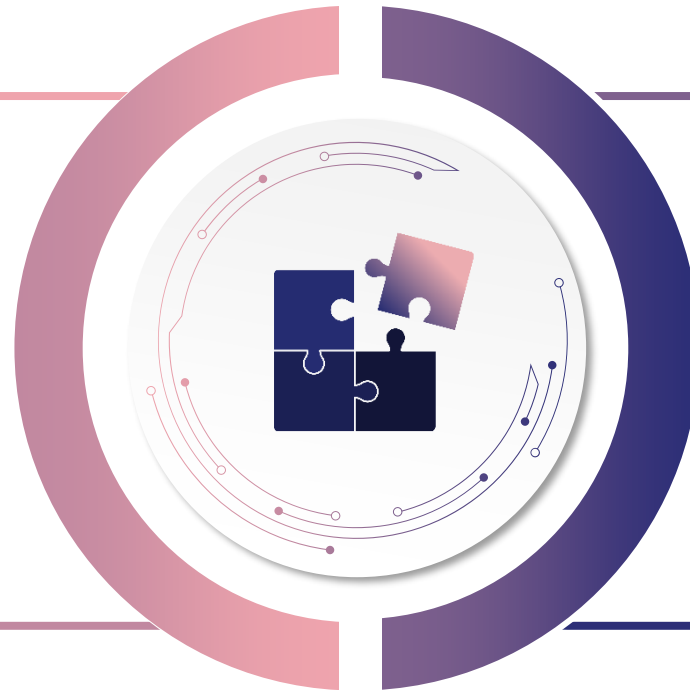

EXTERNAL PARTNERS

Develop your revenues in regulated markets

Leverage Thales' assets to complement your solutions

Expand your reach with Thales' global network

THALES' BUSINESS LINES AND REGIONS

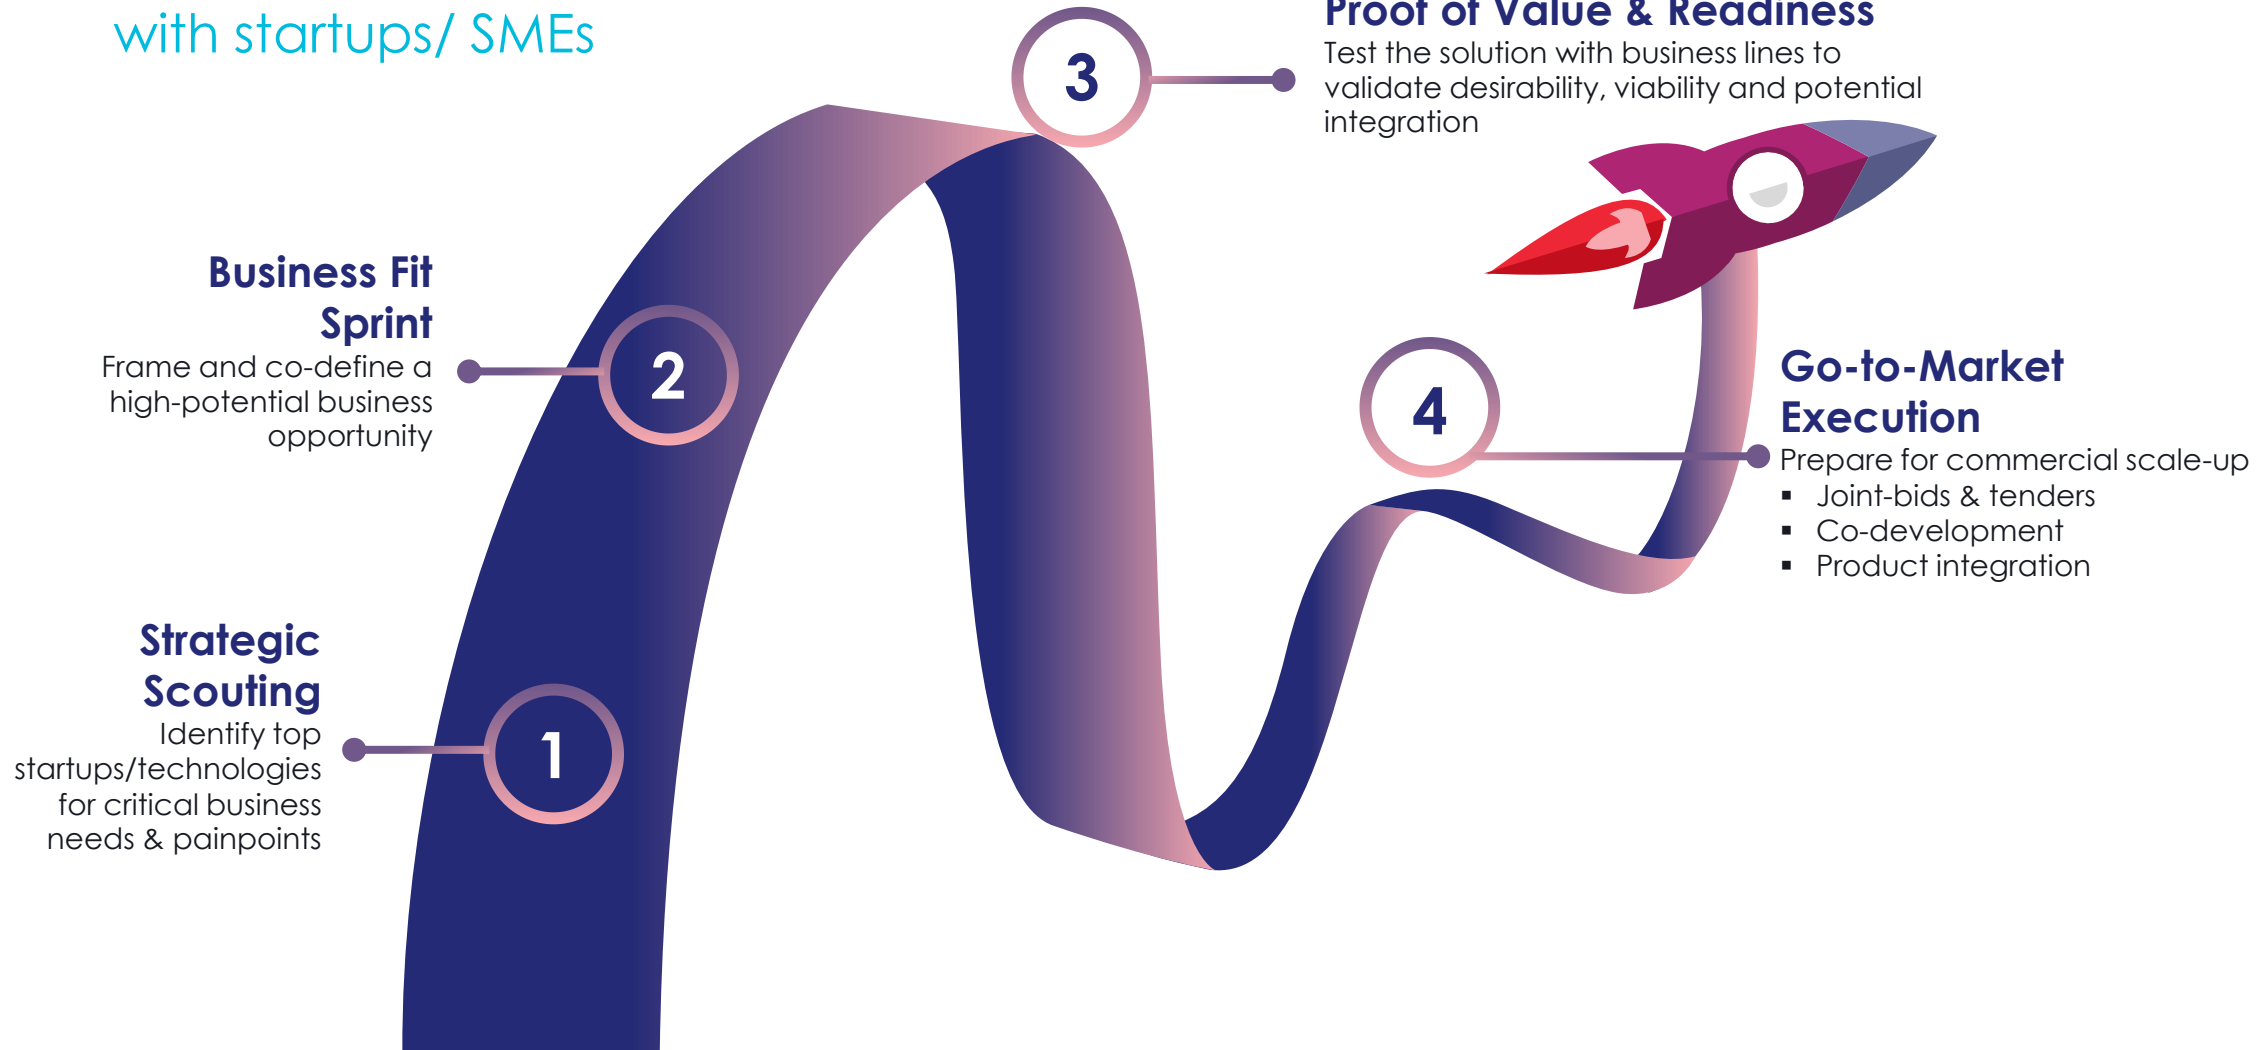

Grow your revenues with add-on services or capabilities

Influence, Sell & Buy with trusted complementors in your region

Share the risks of accessing new emerging markets

Trust My Tech

The 4-stage journey to de-risk innovation with startups/ SMEs

OPEN

What we offer

12-weeks sprint to unleash collaborative potential and value creation

ACCESS TO THALES' ECOSYSTEM

- Access to business lines, markets and clients
- Access to our industrial & cloud platforms
- Find joint-value proposition and business-oriented use-cases

- 1:1 with mentors
- Dedicated workshops by experts (domain expertise, premiumization, UX/UI, design innovation, etc)
- Go to market support

BUSINESS & TECHNICAL SUPPORT

NETWORKING & VISIBILITY BOOST

- Communication & events
- Meet with venture capital partners
- Global industry leaders & startup alumni network community

Trust My Tech – your gateway to concrete collaborations with Thales

Thales as 4 strategic engagement models

End-Customer

We purchase your product or solution to incorporate it into our operations.

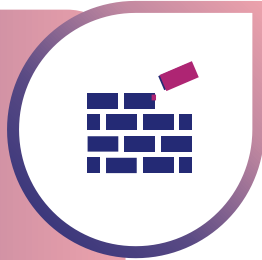

Commercial Partner

We collaborate on bids and tenders to maximize our chances of securing contracts.

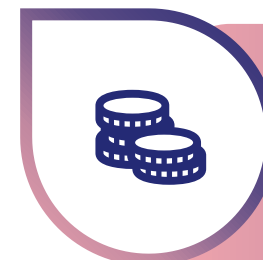

Solutions Provider

We enhance your solutions with our advanced Thales tools.

Investor Network

We expose you to investors for your next stage of growth

Trust My Tech Korea in 2025

Global partnership with MSS / KISED and Thales

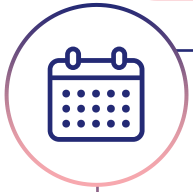

10

startups to be accelerated

2

startups to the POC phase

Kick-Off

Seoul, May 8th 2025

Korean Cohort 2025

CubeSats

SSI-based
Authentication
Payment Solution

AI Analysis of
Satellite, Drone,
Aerial Images

White Hat Hacker
ASM and PTaaS

Real-Time AI Code
Dev Security
Management

AI-powered 2D
Digital Twin with
Indoor Asset Tracking

Eavesdropping
Detection System

AI Manufacturing
Defect/Anomaly
Image Detection

AI 3D Environment
Simulation Tools
using Synthetic Data

Satellite Imagery
using Synthetic
Aperture Radar

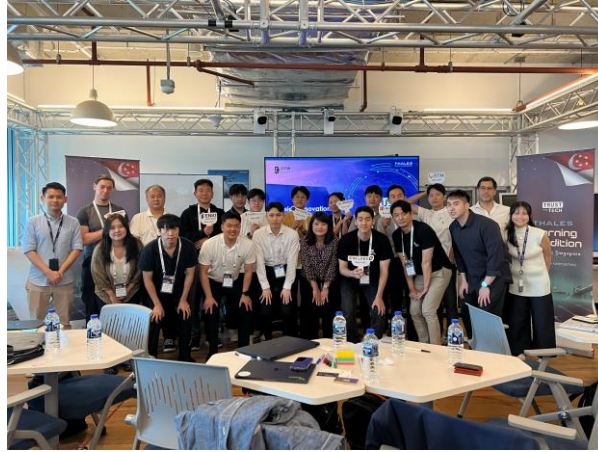

OPEN

LearnEx 2025 – Agenda

3 days

10 K-startups

5 Thales experts mobilised

8th July – 1 Full Day of Masterclass on Design Thinking, BMC/VPC, Design Innovation, Premiumization, UI/UX, etc.
Welcome Dinner for the startups

9th July – 0.5 Days of Masterclass (continuation), ad-hoc meetings with business line representatives, 1:1 meetings between the startups and a SEA representative of VC Korea Investment Partners

10th July – Sharing by HTX on their programs and initiatives, 1:1 debrief and feedback session with Thales

TRUST
my TECH

THALES Learning Expedition in Singapore

모집대상

- 글로벌 기업 협업 프로그램 Trust My Tech 수행기업

프로그램 내용

- Masterclasses at our Singapore Design Centre
 - Meeting with selected BL representatives and local KAMs
 - Visits and meetings with local ecosystem partners
- * 상기 프로그램은 현지 사정에 따라 변경될 수 있음

접수방법

- 구글 설문으로 신청
<https://forms.gle/v6XSaLqB6wCaPv3i9>

참가자 혜택

- 현지 이동비 + 여행자보험 제공

참가자 자부담

- 왕복항공권, 숙박비, 일부 식비

세부일정

- 참가자 모집 : 5.30(금) ~ 6.4(수)
 - 참가자 통보(참가자 대상 오픈채팅방 개설) : 6.5(목)
 - 현지 프로그램 진행 : 7.8(화) ~ 7.10(목)
- * 공식일정 하루전날 7.7(월)에는 싱가포르에 도착해야 함
- 결과보고서 제출 : 7월 중 (별도 공지)

문의

- 넥스트챌린지 (ncf-global@ncf.or.kr)

NC NEXT
CHALLENGE
FOUNDATION ASIA LABS

Challenge Statements for APAC – 2026 (Work in Progress)

Adaptive AI Agents for ATC Training

- AI-Driven Intelligent Tutoring System (ITS)
- AI-Driven Behavioral Analysis and Feedback
- AI-driven ATC Communications Training

ESG

- Sustainability-Driven Software Development Framework
- AI and Machine Learning (ML) Model Optimisation for Energy Efficiency
- Green Cloud Deployment Optimization

Cyber for AI

- AI-Driven Disinformation Detection Tools
- Disinformation Campaign Analysis Platform
- Attribution Analytics for Disinformation

Cyber for Space

- Models designed for a Cyber Control Plane operating in Contested Conditions, under High Latency, or within Sovereign and Defence-driven Mission Contexts
- Embedded Intrusion Detection Systems
- ML-driven Anomaly Intelligence

Unstructured Data for Effective Protection

- AI-Assisted Sensitive Data Discovery & Classification
- Label-to-Control Enforcement Layer
- Continuous Classification for Modern Collaboration

AI x Mission Planning & Evaluation

- AI Algorithms based on Dynamic Reward Functions in Real-time
- Agent Behavior vs Human Behavior
- Simulation Environments for Mission Planning Strategies

Large Scale Logistics Deployment

- Smart Component Real-time Tracking of parts using IoT sensors & Warehouse Automation
- ML Computer Vision / Object Classification Models
- Robotic Picking for Reduction of Manual Labour and Errors
- ML Forecasting Identifying Parts Needing Inspection or Repair

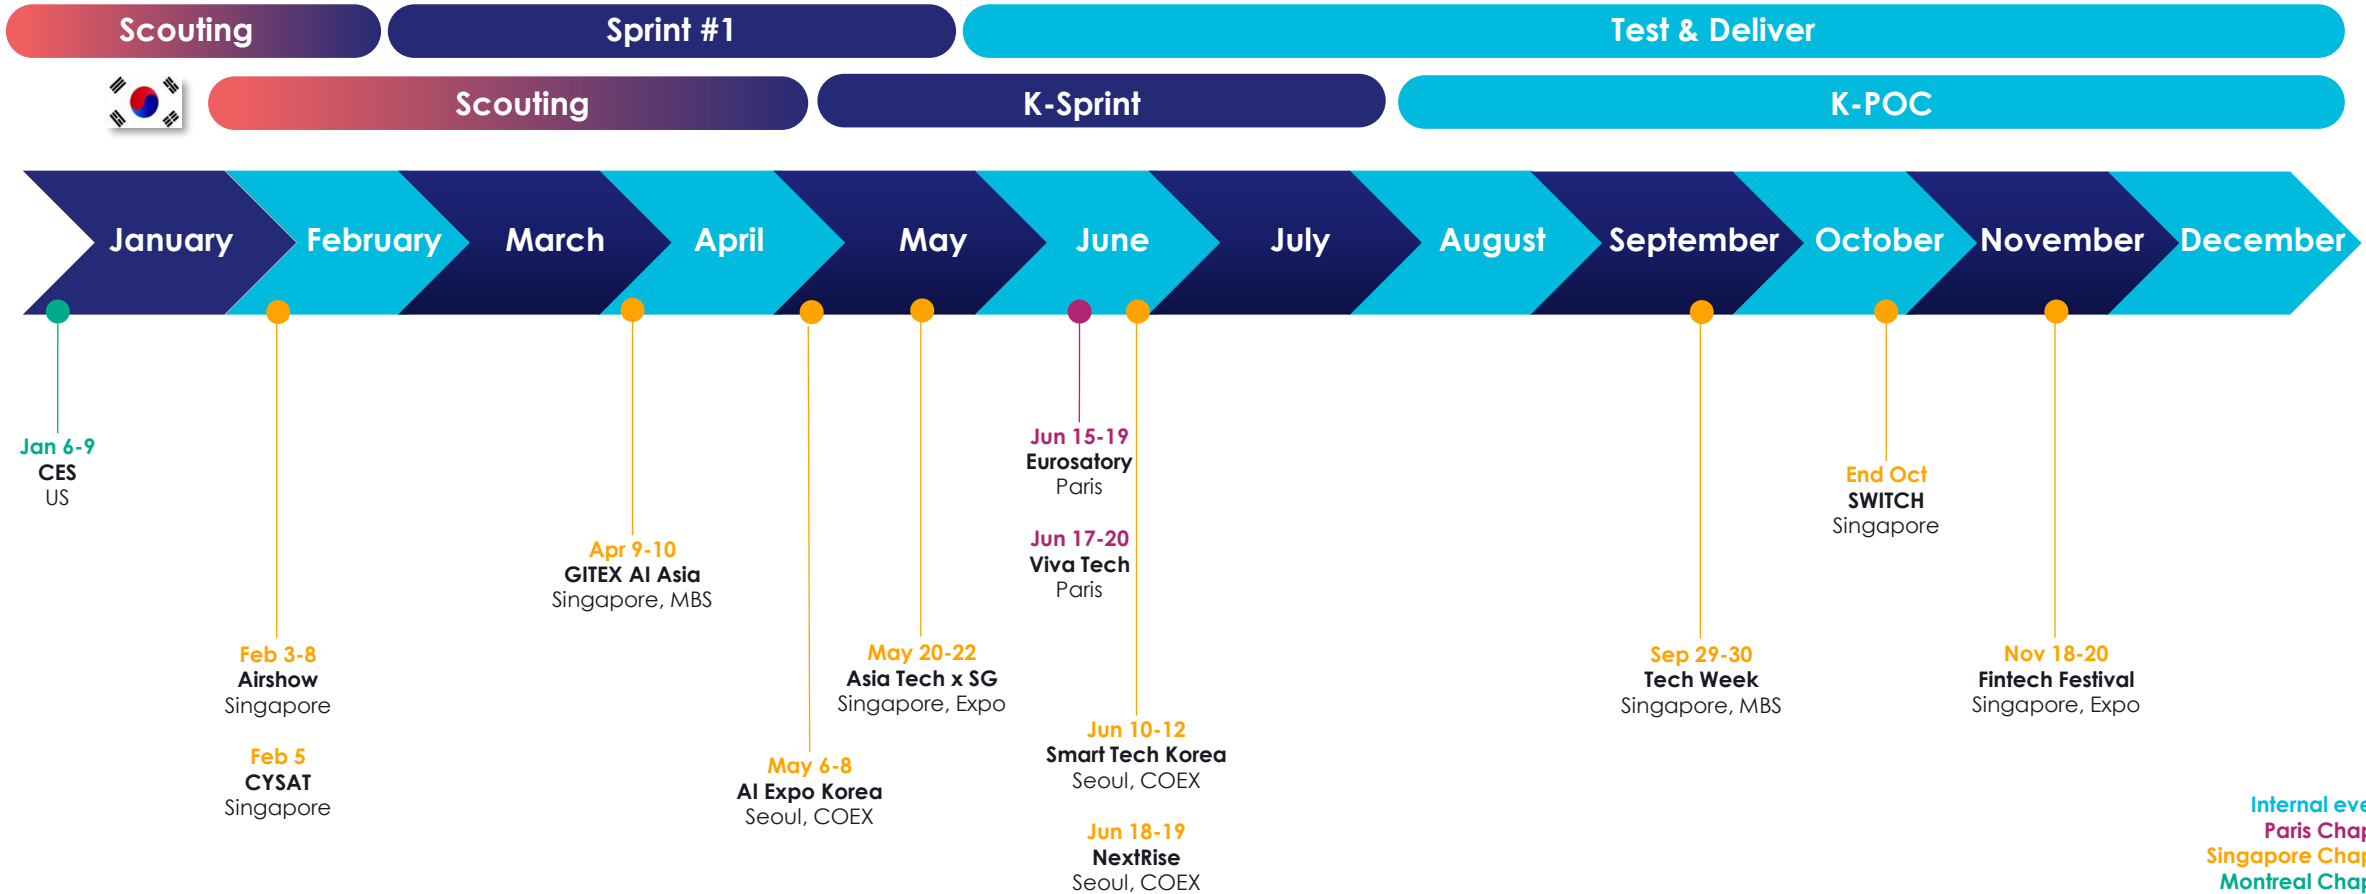

DevOps as a Service

- Automation of DevOps activities using AI Agents
